

LOG CONSENT FORM

As part of the FasterEFT Practitioner Certification requirements, I keep a log sheet of the hours worked and a record of the name and email details of the client/practitioner.

The content of our sessions will not be submitted in the log. The log is merely a journal of all the clients/practitioners I have worked with.

Robert G. Smith, the founder of FasterEFT, may wish to contact you to confirm that I have worked with you for the hours in the log. Therefore, I would like to gain your consent so I can add your name to my log.

I am happy and give my full consent to use my name and email address in your client log.
